ICIC Comments on Bellcore FG D CAC ExpansionPoints Noted

- Requested NANP undertake a survey to determine if an additional block such as 15X and 16X can be reclaimed.
- ICIC recommended NANP initiate discussion with FCC on dialing parity.
- In response to comments NANP indicated:
 - Response from ICIC and USTA were each counted as 1.
 - NANP noted in response to ICIC survey request that the survey requested originally for FG B/D split has not had adequate response. This information if provided would fulfill this request.
 - NANP Administration stated position on permissive dialing period was not taken indiscriminately but is in line with NPA split procedures.
 - NANP Administration will inform FCC of lack of consensus on permissive period per Bellcore Board of Director's policy.
- Concern expressed on the appropriateness of NANP altering the dialing plan without FCC approval.
- Suggestion made that eligibility for CICs should be addressed by the FCC due to impact of end users, CATV, etc.

ICIC COMMENTS ON BELLCORE'S FG-D CIC EXPANSION PLAN**ICCF #17**

- o **The ICIC letter to Bellcore incorrectly states the number of ICs responding to Bellcore on CIC Expansion. The number should be at least eleven, based on the ICIC letter.**
- o **The ICIC request for Bellcore to undertake a survey to aid in lengthening the permissive period has not been acknowledged. The ICIC again requests that Bellcore undertake this survey.**
- o **Bellcore has indiscriminately taken the LEC position on the CIC expansion permissive period issue.**
- o **Bellcore has deviated from its own policy which requires that when consensus cannot be reached on NANP issues, the matter will be turned to the FCC for resolution.**
- o **Bellcore should request that the FCC initiate a public proceeding on FG-D CIC expansion since the industry is divided.**
